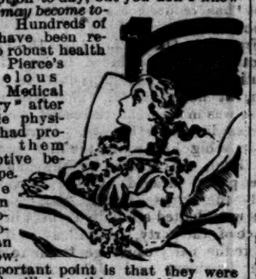
THE REAL QUESTION.

The real question of disease is "Can I be cured?" If you or anyone dear to you is losing strength, flesh, energy and vitality, if you are wise you will not spend time trying to figure out just what name to call the disease by.

It is almost impossible to draw the line where debility and weakness merge into consumption. Your trouble may not be consumption to-day, but you don't know what it *may become to-morrow*. Hundreds of people have been restored to robust health by Dr. Pierce's marvelous "Golden Medical Discovery" after reputable physicians had pronounced them consumptive beyond hope.



Were they in consumption? Nobody can ever know. The important point is that they were hopelessly ill but this matchless "Discovery" restored and saved them.

"I was not able to do hardly any work at all," says Mrs. Jennie Dingman, of Vanburen, Kalkaska Co., Mich., in a most interesting letter to Dr. Pierce. "I had pain in my left side and back, and had headache all the time. I tried your medicine and it helped me. Last spring I had a bad cough; I got so bad I had to be in bed all the time.

"My husband thought I had consumption. He wanted me to get a doctor, but I told him if it was consumption they could not help me. We thought we would try Dr. Pierce's Golden Medical Discovery and before I had taken one bottle the cough was stopped and I have had no more of it returning. Your medicine is the best I have taken."

Write to Dr. R. V. Pierce. He will send you good, fatherly, professional advice, in a plain sealed envelope, absolutely free. His nearly 40 years experience as chief consulting physician of the Invalids' Hotel, at Buffalo, N. Y., has made him an expert in chronic diseases.

Constipation causes and aggravates many serious diseases. It is thoroughly cured by Dr. Pierce's Pleasant Pellets.

ANOTHER WONDER OF SCIENCE.

Biology has Proved that Dandruff is Caused by a Germ.

Science is doing wonders these days in medicine as well as in mechanics. Since Adam lived, the human race has been troubled with dandruff, for which no hair preparation has heretofore proved a successful cure until Newbro's Herpicide was put on the market. It is a scientific preparation that kills the germ that makes dandruff or scurf by digging into the scalp to get at the root of the hair, where it saps the vitality; causing itching scalp, falling hair, and finally baldness. Without dandruff hair must grow luxuriantly. It is the only destroyer of dandruff. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

STRONG Again

is what Mrs. Lucy Stovall, of Tilton, Ga., said after taking Kodol Dyspepsia Cure. Hundreds of other weak women are being restored to perfect health by this remedy. YOU may be well if you will take it.

Indigestion causes nearly all the sickness that women have. It deprives the system of nourishment and the delicate organs peculiar to women suffer—weaken, and become diseased.

Kodol Dyspepsia Cure

enables the stomach and digestive organs to digest and assimilate all of the wholesome food that may be eaten. It nourishes the body, and rebuilds the weak organs, restoring health and strength. Kodol cures indigestion, constipation, dyspepsia, sour risings, belching, heartburn and all stomach disorders.

DISORDER IN CHICAGO.

Henry Levinberg, a brush manufacturer of Chicago, was hurled from the seat of a wagon and beaten by a mob, after having delivered a load of goods yesterday to Montgomery Ward & Co., whose teamsters and garment makers are on strike. Levinberg was overtaken by a crowd of sympathizers at Market and Adams streets. Their first move was to cut the traces and set his team adrift. His wagon was overturned and wrecked. He was rescued by the police.

A novel expedient was resorted to by strike sympathizers to delay traffic. At Clinton and Washington streets several teamsters tied the wheels of their wagons together with chains. It took nearly twenty minutes to break the resulting street blockade, obstructing Montgomery Ward & Co's freight. Police were forced to draw their clubs and threaten many teamsters.

The greatest difficulty encountered in the movement of teams came when an attempt was made to send eight wagons in one caravan from Montgomery Ward's stores to the freight houses of the Illinois Central, the Wisconsin Central and the Michigan Central Railroads. This was the largest caravan that the firm has yet attempted to move. Notwithstanding the presence of nearly 200 police officers the caravan met with constant interference. While the teams and police threaded their way slowly through entanglements of wagons people in the windows of buildings on both sides of the street hurled missiles upon the non-union drivers.

At the entrance to the Wisconsin Central freight house a jam of 200 teams had formed. Wagons had been abandoned by teamsters, horses unhitched, nuts taken off the axles and wheels locked. The fifty patrolmen, after strenuous efforts, succeeded finally in opening a lane sufficiently wide to permit the Montgomery Ward teams to enter the driveway.

Negotiations for a settlement were abandoned yesterday by a committee of the Commercial Exchange, an organization of wholesale grocers, with Graeme Stewart as chairman, who have been holding couferences with a committee of the federation of labor. Yesterday's conference was without result, the labor men remaining firm in a demand for arbitration of the strike of the garment workers before the sympathetic strike of teamsters is ended.

RACE WAR IN KANSAS.

A race war is imminent at Coffeyville, Kans., as the result of an assault by a negro upon Mrs. John Griffith (white), the wife of a machinist. Trouble was narrowly average yesterday, and last night whites and negroes were under arms. In anticipation of a clash between the two races, the mayor yesterday issued a proclamation ordering that all citizens disarm, and at the same time many special officers were sworn in.

Since the attack upon Mrs. Griffith, the negroes have been arming to prevent the lynching of any innocent negro. Yesterday an attempt to disarm a number of blacks resulted in a dozen revolvers being leveled at Chief of Police Smith's head. Other negroes rushed to the scene, but a body of whites stopped them with leveled rifles The leader among the negres was choked into insensibility and the others were subdued.

The negro who assaulted Mrs. Griffith is still at large. Nine negro ringleaders were arrested yesterday afternoon, and thereafter the other negroes began to leave the streets. At 5 o'clock six more negroes were arrested without trouble.

Four hundred deputies were sworn in yesterday, with orders to shoot on the slighest provocation.

The whites are determined to awe the bad negroes once for all, and are patrolling the streets.

There are over 200 tough negroes in the city, and they think they are being imposed on. Two hundred of the best citizens are acting with the police force. Fifteen of the captured negroes were sent yesterday evening to the county jail at Independence.

Chief of Police Smith has been notified that a gang of negroes from Indian Territory armed with Winchesters came in last night on the 10:30 train. Twelve negroes armed with rifles rode into the city last night. Negroes are mobilized in the north part of the city.

Mr. Chamberlain's Speech.

Joseph Chamberlain, president at the annual meeting of the liberal unionist club in London yesterday strongly supported the suggestion of an Anglo-Japanese defensive alliance. He referred to the present Anglo-Japanese alliance as one of the greatest diplomatic achievements of the last quarter of a century and said the treaty had already justified itself by limiting the area of the terrible conflict in progress.

The liberal unionists, he added, would support Foreign Secretary Lansdowne in his determination to carry out the treaty in its spirit as well as in its letter, and he might say would be very glad to follow Lord Lansdowne further if the Foreign Secretary thought the policy he had initiated could be extended.

Mr. Chamberlain believed that any mutual defensive understanding between Japan and Great Britain would secure for an "indefinite" time peace in the far East and give both Japan and Great Britain security in their possessions.

"At the preient movement," he said, "the President of the United States is one of the ablest, one of the strongest and one of the most courageous men who ever sat in the presidential chair. He is a patriot and he has openly declared that one of his great objects and desires as to connect the United States more closely with our Dominion of Canada by reciprocity.

"I do not know what success he may have with his countrymen, but certainly they are in a position to offer very favorable terms to the Dominion. If we reject the idea of considering a similar proposition made to us, is it too much to expect that Canada may turn in another direction?"

New Cure For Cancer.

All surface cancers are now known to be curable by Bucklen's Arnica Salve. Jas. Walters, of Duffield, Va., writes: "I had a cancer on my lip for years, that seemed incurable, till Bucklen's Arnica Salve healed it and now it is perfectly well." Guaranteed cure for cuts and burns. 25c at E. S. Leadbeater & Sons' drug store.

Taking Desperate Chances.

It is true that many contract colds and recover from them without taking any precaution or treatment, and a knowledge of this fact leads others to take their chances instead of giving their colds the needed attention. It should be borne in mind that every cold weakens the lungs, lowers the vitality, makes the system less able to withstand each succeeding cold and paves the way for more serious diseases. Can you afford to take such desperate chances when Chamberlain's Cough Remedy, famous for its cure of colds, can be had for a trifle? For sale by Gibson & Timman and W. F. Creighton & Co.

Alexandria Gazette
SIC SEMPER TYRANNIS
AND VIRGINIA ADVERTISER

THURSDAY EVENING, APRIL 13, 1905.

IT NOW appears that government ownership of transportation facilities is to be tried in connection with the building of the Panama canal. It is to be more than an experiment, for not only has the government obtained possession of the Panama railroad, which it will operate, but it is to maintain a line of steamships from New York to the isthmus for the avowed purpose of controlling freight rates. Upon the success of its steamship line and the isthmian railroad will depend whether the system is to be extended by the establishment of a government line from Panama to San Francisco and an immediate entering into competition with the transcontinental railroads for freight traffic from the Atlantic coast to Pacific coast ports. The subject has been made a live and important one by the return to Washington of Mr. Bristow, who has been investigating for the administration the question of transportation and the effect of the Panama canal upon freight rates. Mr. Bristow made a verbal report to the Secretary of War on Tuesday, in which he told him that the steamship companies in the Pacific, operating between ports of the United States and ports of Central and South America, are unquestionably a combination to control rates and swell their own profits. To prevent a similar combination of steamship companies upon the Atlantic, the government has decided to operate its own line of ships from New York to the isthmus, thus becoming a competitor with private corporations for the carrying trade between New York and Colon.

THE SPEECH delivered by Senator Martin at Lunenburg on Monday has been read with pleasure throughout the State and has met with general approbation. The Senator went to Lunenburg not to speak, but to see the people, and the address he was induced to deliver there, though unprepared, was a manly and straightforward account of his stewardship and had a telling effect upon his hearers. In his report of the speech the correspondent of the Richmond Times-Dispatch says:

The Senator concluded his able speech by asking his audience in an impressive manner to search his record. "If I have been unfaithful; if I have neglected your interests; if I have in any particular failed in my duty to the people of Virginia, vote against me," he said. In closing he stated that he was willing to be judged by the voice of the people of the Commonwealth, and to abide by their judgment. Senator Martin's speech was listened to with rapt attention and was applauded throughout. Especially was it commended for its high and dignified plane, and the absolute absence of all personalities and personal allusions.

HISTORY is often repeating itself, one of the most patent illustrations of the observation being present conditions in Kansas, where a race war is in progress. A white woman was recently assaulted by a negro, and the white people are naturally incensed. The negroes, on the other hand, are arming and trouble is imminent. Half a century ago Kansas, the incubating ground of the present republican party, was in the throes of a turmoil over the negro issue, and John Brown was one of the leading and fierce spirits who espoused the cause of the colored race. Much blood was shed and bitterness engendered which has not been assuaged in the years which have followed. Today the white people are arming to protect themselves from the race their predecessors manifested such interest in.

MR. SWANSON is winning friends throughout the State and many of the papers are speaking in most complimentry terms of his speeches. The Richmond correspondent of the Petersburg Appeal says:

If there was any suspicion in the minds of the public that Congressman Swanson would exhibit any hard feelings against Governor Montague for his defeat for the Governorship, the last time, it has been dispelled by the genial Congressman's recent utterances His references have been cordial and kindly, and if there is anything in the Barksdale law or other things that he personally opposed, he accepts them all as the voice of the democratic party. Swanson's campaign speeches are thoroughly good-natured and are not likely to rub anybody the wrong way.

ANNOUNCEMENT is made that the remains of "Tom" Moore are to be transferred from the English churchyard in which they have rested since death, in 1852, to Glasnevin Cemetery, in Dublin. A memorial committee has this matter in hand, it is said, as well as a plan for the erection of a monument to the poet. It is earnestly to be wished that this will not be done. Moore's grave is in a peaceful and lovely churchyard, in the village of Bromham, near Devises, not far from the home in which he lived for thirty-five years, and in which he died. His wife and two of their children are buried with him. All the associations of the place are harmonious with the poet's gentle memory; whereas the characteristic of Glasnevin is ostentation.

THE Venezuelan situation has not been changed by the publication of the correspondence between the President of the South American republic and Minister Bowen, and peremptory refusal of Castro to submit the claims of the asphalt trust to arbitration. Strong language used by Castro and by his representatives is regarded as amusing rather than offensive both at the State and War Departments, but by all fair minded people he is fully justified in the position he has taken. The only developments expected in the near future are concerning the status of Minister Bowen. Secretary Taft expects to decide within a few days whether Bowen should be recalled. Diplomats in Washington are inclined to believe that the United States has assumed an untenable position in its controversy with Venezuela.

TODAY is the anniversary of the birthday of Thomas Jefferson. The great statesman will ever hold his place in the hearts of the American people, he having stamped the idea of equality indelibly upon the American mind. The University of Virginia today celebrated the birthday of its founder by inaugurating its president, Dr. Edwin A. Alderman, until recently the head of Tulane University, New-Orleans. He brings to the university an element of the Jeffersonian spirit, and, under President Alderman, this institution, which was the dream of Jefferson's youth and the child of his old age, is destined to become a greater factor than ever in this country.

AT THE recent meeting of the East Hanover Presbytery prayer was offered for the Emperor of Japan, and that God would give to the Japanese such a victory as he had for them. With no desire to criticise religious bodies, it may be said that many people fail to see what fellowship either Japan or Russia can have with the New Testament. They are both acting aversely to its principles—one in attempting to hold territory upon which it has no claim, and the otherndeavoring to oust the squatters that she may march in and take possession.

From Washington.

[Correspondence of the Alexandria Gazette.]

Washington, D. C., April 13.

That interest in the Moroccan situation, created by Germany's dissatisfaction with the Anglo-French entente in regard to that country, is still alive among the European cabinets was demonstrated this morning when the Italian Ambassador, Baron des Planches, called upon Secretary Taft to discuss the matter with him. The Italian was looking for information as to the attitude of this country in relation to the recent German memorandum indicating the desire of that government for free trade facilities in Morocco. Secretary Taft told him, as he has told all other inquirers on the subject, that the United States had not been invited to take any action in the matter and that in any event it was not regarded as a matter of such pressing importance that it could not await the return of the President from his hunting trip.

The railroad commission of Kentucky, today filed proceedings with the Interstate Commerce Commission against the Illinois Central and the Nashville, Chattanooga & St. Louis railroads, alleging discrimination in grain freight rates from Morganfield and Uniontown, Kentucky, to Atlanta, Georgia, in favor of other Ohio river points. The commission asks for proceedings to prohibit a rate higher than 22 cents per 100 pounds.

The National Council of Women decided this morning to commence an active propaganda against the "white slave" traffic, to be carried on in this country in co-operation with the International Council of Women in Europe. The purpose of the work will be to eradicate so far as possible the most aggravated features of the evil in large cities. The following officers were re elected this morning, to hold office for the coming three years; president, Mrs. Mary Wood Swift, of San Francisco; vice president Mrs. Kate Waller Barrett, of Alexandria, Va; recording secretary, Mrs. Frances E. Burns, of St. Louis, Michigan; treasurer, Mrs. Lillian Hollister, of Detroit, Michigan. Mrs. Flo Jamison Miller, of Wilmington, Ill., refused re-election as corresponding secretary and in her place was elected Mrs. Belinda Bailey, of San Francisco.

The advance sheets of the foreign relations for 1904, made public today, reveal the fact that Japan failed to keep a promise made by the minister of foreign affairs to the representatives of the powers at Tokio that she would not begin hostilities against Russia until after a formal declaration of war should be made. This diplomatic correspondence contains the following paraphrase of a cablegram from Minister Griscom at Tokio, dated Feb. 6, 1904: "Mr. Griscom reports that the minister of foreign affairs stated that a declaration of war will not be made until after the withdrawal of their legation, which will probably take two or three days, and hostilities will not begin until after the declaration of war." The former part of this promise was kept, but the latter was not. The declaration of war was not issued until Feb. 10, whereas on the 9th the Japanese attacked and sunk at Chemulpo, Korea, the Russian cruiser Variag and the gunboat Koreitz.

In October, 1903, the American ship Benjamin Sewall was wrecked off the coast of Formosa. A boat containing part of her crew attempted to land on the island of Botel Tobago, which belongs to Formosa, but the natives rushed down upon them, upset their boat in the surf, drowned eight of them and later maltreated the two who succeeded in getting ashore. Through official channels, according to correspondence of the State Department made public today, the matter was reported to Formosan government which "severely and efficiently centured the natives" for their "ill-treatment of the crew of the ship's boat." In view of the fact that eight people had been murdered, including several Americans, this government concluded that a mere censure, no matter how severe or efficient it might have been, would not be very impressive or prevent almilar occurrences in the future. So the Japanese Imperial government was called upon with the result that a punitive expedition was organized. Several chiefs of the savage tribes implicated were captured, a number of their houses were burned, and the natives were thoroughly scared. It was, however, impossible to ascertain who really perpetrated the murders, and the guilty ones will doubtless escape punishment.

The Haitian Minister here, Mr. Leger, called at the State Department this morning to present to acting Secretary Loomis the objections of his government to what they have been pleased to call the alarmist dispatches which U. S. Minister Powell has been sending regarding the internal conditions of Haiti This was the first opportunity that Mr. Leger has had to discuss the matter with the head of the department although he has heretofore brought it to the attention of assistant Secretary Adee. The particular point in Minister Powell's dispatches to which umbrage is taken by Haiti is his statement that the Haitian government would not be able to preserve order during the anticipated disturbances of March 31 and April 1, which, by the way, never occured How Powell could predict that the government would not be able to handle any outbreak that might have occurred is a mystery to the Haitians and in view of the fact that his dispatch on the subject prevented the successful conclusion in Europe of negotations for a loan they feel that Powell overstepped his province and is no longer as welcome at the Haitian capital as he was. No formal demand for his recall has, however been presented and Mr. Leger's call this morning was simply to acquaint Secretary Loomis with the situation from the Haitian standpoint.

The races at Benning, after a most successful season, closed this evening. A large crowd attended the closing day's races.

The Postmaster General today issued a fraud order against the Physicians' Protective Association and the United Protective Association, of Kansas City, Mo., and Coffeyville, Kas. These concerns are alleged to have collected bad accounts for physicians, the principal objection made by the latter being that the collectors failed to account for any of the collections.

Secretary of War Taft is about to take up the general question of railroad construction in the Philippines under the act passed by the recent session of Congress authorizing the extension of government aid through guarantee of four per cent. interest on money invested by private parties in the building of railroads there. The Secretary will this week have consultations with General Manager Delano, of the Chicago, Burlington and Quincy Railroad, who is acting as his special advisor in this matter, and with James Speyer and J. G. White New York financiers, who have in contemplation the financing of certain of the proposed Philippine roads.

Word has been received from Manila of a proposition made to the Philippine government by A. J. Dawson, an American sailor and a veteran of the civil war, to fit out an expedition and raise the American flag over one of the islands of the south Pacific, now inhabited by maneaters, but possessed of untold treasure in the shape of gold, copper, platinum and tin. The island has been charted, according to Dawson, but its exact location is not known here. Dawson first told the story to Consul General Bragg, at Hong Kong, who referred him to Governor Wright, of Manila. Dawson says that he lived among the anthropophagi on the treasure island for four years, when he aroused their displeasure. They pursued him and shot both legs full of poisoned arrows, causing wounds from which he is now slowly convalescing. The Philippine government, according to the advices received, has declined to authorize an official expedition, and Dawson is now endeavoring to interest adventurous Americans in the Philippines to establish a new kingdom on the island.

The North Carolina Monument.

In his address at Appomattox Wednesday Governor Glenn, of North Carolina, in the most conciliatory spirit and with winning frankness, threw some light on the monument claims that some Virginians disputed. In reference to Bethel, he said Henry L. Wyatt, of the First North Carolina regiment, was the first Confederate killed in the war. He quoted from the old Richmond Enquirer and the other Virginia papers in substantiation of the statement as to Wyatt.

At Gettysburg in the great charge on the third day, Virginians on the right and Carolinians on the left were ordered to storm and take a long, irregular line of fortifications. The Virginians it so happened did not have so far to go. The Carolinians, on the other hand, were ordered to take a point in the fortifications that was farther back from the initial line from which the troops of the two States started. Hence the claim that Carolina went farthest at Gettysburg.

At Appomattox the Carolinians under Cox and Grimes were partially cut off from the body of Lee's army and did not get information of the surrender promptly and kept on fighting. Two orders to retire and to take their place preparatory to surrender were given the body of Carolinians before they ceased firing. Close analysis of the claims of Governor Glenn would seem to indicate that the position of the Carolinians in each of the three instances was largely accidental.

Doesn't Like the Marriage.

The Hebrew Standard, of New York, will print today an editorial criticising the coming marriage of Miss Rose S. Pastor, the East Side writer, and J. G. Phelps Stokes, the man who has been associated with her in settlement work, though it does not name them.

"The notoriety which the lady in the case has achieved," the editorial will say, "is nauseating in the extreme and likely to turn the heads of Jewish girls anxious to figure in the daily papers. The union of the two persons should be a matter of absolute privacy, concerning only their nearest relatives and friends.

"Jewish young men and women should be warned against matrimonial alliances with those outside the faith. The Jew must remain a Jew.

"As a rule, intermarriages between Jews and Christians have turned out unhappily. In almost every instance the Jewish man and woman have become lost to Judaism and the children educated as Christians.

"Our Jewish sages have always protested against proselytism, as they place proselytes in the category as 'leaders.' Jews were not created as a nation for the purpose of assimilating with other people. The Jewish race was to be preserved separate and distinct, and only when the Jew was a Jew in the real sense of the word was he in a position to fulfill the Divine behest: 'Be thou a blessing.'"

We have received with the compliments of G. W. Koiner, Commissioner of Agriculture, the annual report of the Virginia Department of Agriculture, which is not only of interest to farmers but to the people of the State at large. The volume is handsomely illustrated and is full of valuable information concerning the soil and products of Virginia.

Julius Kraker, 77 years old, a retired merchant, of Richmond, took his life with a pistol yesterday morning at his home in that city. FLOOD DEFENDS MARTIN.

In a speech made Tuesday at Buckingham Court House by Congressman H. D. Flood, in defense of Senator Martin, whose record Gov. Montague has criticised, he said that every principle of government that the governor advocated, such as government control of railroads, enlarging the powers of the Interstate Commerce Commission, and national aid of public roads, had been urged by Senator Martin long ago. He said that Mr. Martin advocated election of senators by the people in 1899, whereas the democratic convention did not adopt the primary plan for the choice of Senators until 1901. In alluding to the governor's charge that Senator Martin did not speak often in the Senate, he said the Senator did speak effectually when it was necessary. "Gov. Montague wants to know what Senator Martin has done," said he "What has Gov. Montague done? He has talked, talked, from Bristol to Accomac, but search the records and see if you can find a single reform or a practical idea that he has suggested," He said he was informed that the governor had been absent from his office 166 days in 1904. Here the speaker was interrupted by Thomas Leitch, who asked Mr. Flood if he believed that Gov. Montague would deliberately neglect the duties of his office and take compensation therefor.

Mr. Flood said:

"I make no such charge. I simply state facts. You can draw your own conclusions."

Here there was great confusion in the audience, and it was some time before the speaker could continue.

Gov. Montague also spoke at Buckingham Court House Tuesday. He again devoted a large part of his address to the record of Senator Martin. He alleged that Senator Martin had continuously opposed the plan of making nominations by primary, and that a man who was driven into the support of a measure did not really represent the people. He also said that the Virginia legislature had passed a resolution in 1900 requesting Senators Daniel and Martin to use their efforts to have the constitution of the United States so amended as to provide for the election of United States Senators by direct vote of the people. He had not been able to find that Senator Martin had paid any attention to this command. Gov. Montague also said that the journal of the Senate showed that Martin had voted against a resolution providing for an investigation of the methods used in the election of Senators and members of Congress and the use of money by corporations.

The University.

Large crowds of people, including the alumni and distinguished men from all over the country, are at the University of Virginia today to attend the inauguration of Dr. Edwin A. Alderman as president of that institution.

The installation exercises will begin at 4 o'clock in the afternoon and will be held in the public hall at the foot of the lawn. The procession, which will form at 3:30, will consist of nine divisions. At 8 o'clock in the evening the students will enliven the occasion by a torchlight procession. At 9 o'clock in the rotunda will occur the banquet of the General Alumni Association.

An interesting event of inauguration eve was the banquet last night by the minor chapter of the Phi Delta Psi, the leading law fraternity of the university. The occasion was the initiation into the fraternity as honorary members of Gov. A. J. Montague, Senator Thomas S. Martin, Senator John W. Daniel and Judges James Keith and Stafford G. Whittle, of the Court of Appeals.

Today's Telegraphic News

Dr. Alderman Installed.

Richmond, Va., April 13.—Dr. Edwin Anderson Alderman, a native of North Carolina, and until recently president of Tulane University, was installed the first president of the University of Virginia at Charlottesville today, the birthday of Thomas Jefferson, the founder of the university.

The event was marked by the first appearance of the faculty in caps, gowns, and hoods, this picturesque innovation having been suggested by Dr. Alderman.

The crowd, numbering distinguished educators from all parts of the country as well as alumni of the school, was the largest ever at the university on any occasion, and the capacity of the hall, which is estimated at 1,600, was insufficient to meet the demand for seats.

At 3 o'clock the faculty, honored guests and student body assembled in the rotunda and marched down the lawn to the public hall. At 4 o'clock the installation ceremonies began with music by the University Glee Club. The Rev. R. D. Sweet, of Norfolk, made the invocation.

The rector, Charles H. Jones, of the Board of Visitors, pronounced the words of formal induction into office of Dr. Alderman, and the new president made a formal response.

Congratulatory address were made: For the faculty, Prof. F. H. Smith; for the alumni, United Senator Thomas S. Martin; for the State, Governor A. J. Montague; for sister universities, Prof Archibald Cary Coolidge, of Harvard, representing the East; President Nicholas Murray Butler, of Columbia, North; Chancellor Hill, of the University of Georgia, South; and President R. S. Jesse, University of Missouri, West.

President Alderman's inaugural address was the last and most important event on the programme. Benediction was pronounced by the Rev. Dr. S. C. Mitchell, of Richmond college. As all the distinguished guests and representatives of universities and colleges wore gowns and their college honor, the scene was a great mass of brilliant color, presenting almost every institution of learning in this country and many of the great universities abroad.

At nine o'clock this evening a banquet will be served. After the banquet the students and alumni will march in a torchlight procession past President Alderman and the distinguished guests. Fireworks will be set off and bands of music will play upon the lawn.

The Fleets.

London, April 13.—News has reached here that the Russian fleet was engaged yesterday in coaling off the Natuna Islands. As the Russian vessels were already heavily coaled when they were observed passing Singapore this is taken to indicate that Admiral Rojestvensky does not intend to put into Saigon, Cochin China, but is planning to continue his voyage through the China Sea toward Vladivostok. Natuna Islands are located northeast of the Anambas group near which the supposed battle between the fleets was reported to be in progress yesterday. The Natuna group is about 125 miles north of Mata, of the Anambas group, and directly in the path which Rojestvensky would naturally use in heading toward Formosa strait on his way toward Vladivostok or in making the passage east of the Philippines to reach the Pacific ocean.

Singapore, April 13.—The steamer Nubia reported this morning that at noon on Tuesday, she passed a Russian fleet of not less than forty-two ships in latitude 8 degrees north and longitude 109 degrees east. The fleet was steaming northward at the rate of nine knots, presumably being bound for Saigon, Cochin China.

Hong Kong, April 13.—The British cruiser Iphegenia has telegraph to the naval authorities by the wireless system, that she passed forty-two Russian warships 140 miles south of Saigon. The fleet was headed north. Two Japanese warships passed Cape Rock, Hong Kong, Tuesday night, going south at full speed. The vessels showed no lights.

War in the East.

St. Petersburg, April 13.—A dispatch from Gunchuling says a reconnoisance has developed the fact that the Japanese have occupied Tsiulichun, which is northwest of Schuanmiaodz, Manchuria. Toward the east the Japanese line extends from Minhuamai to Nadsynia Better conditions prevail after the recent storms and the roads are becoming good once more. A renewal of the fighting is expected shortly.

St. Petersburg, April 13.—General Linievitch, commander-in-chief of the Russian army in Manchuria, reports that on April 11, the Russian artillery dislodged the Japanese from their positions, at Nanchintsia. On April 6 the Russian cavalry were driven out of Tafango by the Japanese who were aided by a number of Chunchuses and retired beyond Nansankudzi. Later the Russians retook Nansangkudzia.

Indictments Returned.

Chicago, April 13.—Two indictments were returned by the U. S. grand jury investigating the alleged beef trust, this morning, and bench warrants immediately were issued by Judge Humphreys, for the apprehension of the persons named in the papers. Who the individuals are is not made known, the court issuing strict orders to the marshal not to divulge the names until he had made the arrests. The basis of the indictments is said to be conspiracy and intimidation of witnesses, although perjury may be the allegation. Nothing is given out by the United State officials beyond an admission that the indictment had been found by the jury. Great activity on the part of the government secret service men immediately followed the presentment to the court.

Letter to J. L. Crupper,

Alexandria, Va.

Dear Sir: The cheapest thing in the way of sending anything over the world is a postage stamp; and the cheapest way to shed water is paint.

No whitewash; paint. Do you happen to know—it don't belong to your business to know about paint, you know—do you happen to know that most of the makers of paint stuff it out with lime and clay and sand and water and air?

They do stuff it out in the can; but not on the house. They make more gallons to sell or to buy; more money to pay for paint; more money to pay for putting it on; a good deal more money to pay for putting it on; but no more beauty; more rust; decay; disappointment; loss.

Devoe is your paint, because it's all paint; no sham, and full-measure. Yours truly

F W DEVOE & CO

Large Fee.

Newark, N. J., April 13.—Judge Lanning in the United States circuit court, today allowed James Smith, jr., $55,000 fees as special master in disposing of the property of the United States Shipbuilding Company. Of this amount, $40,000 represented his fee for the sale of the properties covered by the Mercantile Trust Co. mortgage, and the balance the fee for the sale of properties covered by the New York Security and Trust Company. The awards have nothing to do with his receivership fees. As receiver, Smith was authorized to distribute among creditors a portion of the one million dollars in cash that he has on hand.

Bank Robbed.

Cherubusco, Ind., April 13.—The private bank of O. Gandy & Co., was robbed this morning. The amount taken was $8,540. The robbers overlooked $2,000 on the floor under the safe door. The entire banking room was demolished and three explosions of nitro glycerine were necessary to accomplish the work. Two men remained outside, armed with Winchester rifles, and kept up a fire to intimidate people who came on the street. Banker Gandy's wife was shot in the neck, but not seriously injured. The robbers escaped by taking a horse and buggy. The went south pursued by officers in an auto. A posse is also in pursuit.

To Fight Steel Trust.

Pittsburg, April 13.—A deal was closed yesterday whereby, for $1,500,000, 600 acres near Allequippa, situated admirably for mill purposes, passed into the hands or a syndicate of Pittsburg capitalists, headed by Henry Fownes, the millionaire golf expert. An immense plant, equal of superior to the best of the steel trust's plants, is to be built immediately. Many millions are back of the project, which also involves the erection of a great pressed steel car manufactory. Mr. Fownes fights the steel trust, because, he says, Carnegie got his Corrie furnace from him for $1,000,000 less than he ought to have given.

Murder in New York.

New York, April 13.—Under the white lights of the tenderloin a wild revel, which began at 11 o'clock last night, ended in riot and murder just before dawn, today. The scene of the tragedy was the Rathskeller of Toby's cafe, at Thirth-first street and Broadway. The murderer and others who participated in the fighing escaped, but the police say all will be under arrest before night. Halt dozen people were stabbed. Ray Joyce, a barkeeper, was stabbed and died, while two other men were taken to the hospital. It is thought both will die.

Kentucky Doctor Attacked.

Versailles, Ky., April 13.—Dr. Wiley H. Forsythe, formerly of Versailles, who was recently attacked by a band of Korean rebels, according to advices received here, and badly injured. Dr. Forsythe was called into the interior to attend a Korean man, who had been shot by robbers. He stopped for the night at the village of Mankoi. During the night the house was broken into by the rebels, and Forsythe being unarmed, was at their mercy. His skull was fractured and one ear severed. He recovered from his wounds.

Train Ditched.

Vicksburg, Miss., April 13.—The midnight flyer North for Memphis, on the Yazoo and Mississippi Valley Railroad, ran into an open switch at Welch station, 18 miles north of here, at midnight. The engine was ditched fifteen feet down an embankment. Engineer Louis Burnan and Fireman Daggin were thrown toward the track and escaped injury. All the cars were derailed but the sleeper. No one was hurt, except a negro woman.

Senator Burton Indicted.

St. Louis, April 13.—The federal grand jury today again indicted United United States Senator Joseph Ralph Burton, of Kansas, on five counts. Three of the five charges are that he made an agreement with the Rialto Grain and Security Company, to protect them from a postal investigation, and the two allege that he accepted money for these services.

Negro Spirited Away.

Jackson, Miss., April 13.—Edward Johnson, the negro indicated by the Hinds county grand jury, charged with having committed a criminal assault on Miss Mamie Marsh, on the night of February 23, has been spirited away to Raymond by the sheriff. He will not be brought back to Jackson until arrangements are completed for his trial.

The Recent Earthquake.

Simla, India, April 13.—The latest reports from the outlying districts in which the recent earthquake wrought such great havoc show that 400 deaths were caused in the hill station of Mandi. In the Sultanhur district many hundreds were killed, but the exact number of deaths has not yet been estimated. The natives are gradually recovering from their fright and are beginning to rebuild their homes which were destroyed in the earthquake.

Simla, India, April 13.—Lady Curzon, wife of the Viceroy, through the lieutenant governor of the Punjaub, has invited all the Europeans and Indians who were injured in the recent earthquake and who can be moved to come to the Ripon and Walker hospitals here as her guests. The intimation was given to the lieutenant governor that Lady Curzon would gladly defray all expenses.

Destructive Fire.

Moscow, April 13.—Fire is reported to have caused a great deal of damage at Tulaquul, 105 miles south of this city. The fire started in a cartridge factory and spread to a naphtha reservoir.

New York Stock Market.

New York, April 13, 11 a. m.—After the opening the stock market acted in a nervous manner, and although the Gates interests made several bullish demonstrations apparently in connection with their work in May wheat in Chicago, there was no disposition on the part of local traders to join in the buying. There were some sharp advances in the stocks which have been accumulated and are likely to be accumulated for special purposes. The room and the Wall street district generally is full of talk, apparently inspired by prominent banking interests, to the effect that next week will be a banner week in the bull campaign that has been in progress since last summer. It may be that it is intended to use the Supreme Court mandate in the Northern Securities case as a bull card of the highest importance. Government bonds unchanged.

The President's Whereabouts.

Fort Worth, Texas, April 13.—The day brought some happiness to Secretary Loeb, as with his departure for Frederick, Oklahoma, this morning, accompanied by the secret service men, and other members of the presidential party, he hoped again to be in communication with the chief executive. The secretary has not had communication with the President since the party separated last Saturday. He chose not to bother the President unless matters of the utmost importance developed. The President, likewise, has not bothered the Secretary. He "left the party in good hands," as he told friends, at Frederick, when he started on the hunt, and without anything to worry himself started in to enjoy himself. From private advices from the President's camp, it is known that he is in good health, and he has derived much benefit from the shoot. There are many tales told of the President's activity, including follies indulged in by all members of the party. It is said, the President has reduced his weight several pounds.

Frederick, Oklahoma, April 13.—President Roosevelt concluded his four days hunting in the Indian pasture reservation, at noon, today. The last wolf chase was made from the camp, toward the east line of the reserve. During the chase a big lobo wolf, the first one of the hunt, was scented by the hounds. The party, headed by the President and the dogs began the chase. The wolf halted a hundred yards in advance of the party, and killed two dogs, before the party could get to the rescue. The President and John Abernathy were the first men on the scene. Abernathy leaped from his horse, grappled with the fighting wolf, at last seizing him by both jaws, and capturing him. This was the only lobo wolf captured in the hunt.

The Strike in Chicago.

Chicago, April 13.—Peace possibilities in the teamsters' strike against Montgomery Ward & Co. will be given a final test this morning. Three representatives of the employers' association will meet a committee of 11 labor leaders. The conference was arranged at the request of President Cornelius P. Shea, of the teamsters' union. Neither side in the controversy seriously expects the situation to be changed by the meeting. The divergence of arbitration ideas held by the employers and the men is looked upon as too wide to permit argument. The only other peace possibility in sight is the action of Mayor Dunne. In a conference with leading employers the mayor was given to understand that the strikers' kind of arbitration, and incidentally the kind which the mayor had in mind, was wholly unacceptable to the business men. Mayor Dunne wanted the employers to urge upon Montgomery, Ward & Co. arbitration of the whole trouble. This the business men refused to do on the ground that Montgomery Ward & Co.'s business was a private matter. Mayor Dunne's attitude was regarded as exceedingly important.

Will of George Rice.

Marietta, O., April 13.—The will of the late Geo. Rice was admitted to probate yesterday and it shows that his entire estate was valued at but $10,000, thus confirming the rumor that the one-time oil king who spent a life time fighting the Standard Oil Company died poor. In Spite of the fact that Rice at one time owned much property in this city and elsewhere, and valuable holdings in the famous Macksburg oil field, there is nothing to show for it.

"Choir a Pathway to Hell."

"The pathway to hell is through a church choir," said Burgess Charles H. Pennypacker, in lecturing a number of small boys on Tuesday after they had with a stone broken a window at the home of Professor Addison Jones, principal of the public schools at West Chester, Pa. The boys are members of the vested choir of the Church of the Holy Trinity, and the offense was committed after choral practice. "There should be no pretext for the children of West Chester to be upon the streets after 9 o'clock in the evening," said the wise burgess, "unless they are accompanied by their parents or some responsible person. If the church needs a choir after 9 o'clock, the borough doesn't. I was informed that the boys constitute a Sunday school class, and that recently some of them jollied each other as to when they would reach the House of Refuge at Glen Mills. It looks as if a cowhide were needed in this case." The matter was held under advisement for one week.

Wedding Thrice Stayed.

A dispatch from Winchester says: After preparations had been made for her marriage to Pearl Sumption, of Harrisonburg, yesterday afternoon, Miss Elsie Snapp was taken suddenly ill and was carried to her room fainting. Twice before Miss Snapp went through the same experience, once being stricken with pneumonia, from which she only recently recovered. The wedding has been indefinitely postponed.

No Saloon For Leesburg.

At present the entire county of Loudoun is without a saloon within its borders.

New Tracks of Electric Road.

The new tracks of the Washington, Alexandria and Mount Vernon Railway in Washington on C and D streets will be put in use for the first time, it is stated, Sunday morning next, and passengers will then be handled to and from the new station at 12th and D streets and Pennsylvania avenue. The painting and decorating of the station is about completed and within the next day or two fitting up of the new station will be done. Saturday night the transfer of all the railway company's property from the present station at 13½ street and Pennsylvania avenue will be made. The building of the new tracks is now practically completed and the connection at 13½ and C streets will be made late Saturday night and the electric power will then be turned on. The opening of the new station marks the beginning of the era of improved service between Washington and this city, with new cars, double track and speedy service. The work of double tracking the road under the new steam railway tracks at the Washington end of the Long bridge is being pushed, and within the next two weeks, it is understood, trains will be running over the new track. The rain has intefered with the double tracking of the road near Alexandria, but the building of the road bed is progressing, and it will be three weeks or a month before the first section of it can be used.

Mysterious Affair.

Late yesterday evening while a tugboat was passing a point a short distance north of the government magazine wharf cries of murder were heard on a bugeye anchored in the river. People on the tugboat allege that they saw a woman kicked overboard from the bugeye by a man. The tugboat went to the rescue and pulled the woman out of the water and placed her on the sailing vessel. There were two men on the bugeye, and after the woman had been placed on the deck she accused one of themof robbing her of $40. The man claimed that the woman was his wife. The tugboat subsequently proceeded up the river. Later the bugeye dropped down and anchored at a point near the outlet of the old canal, and this morning sailed down the river. Officer Allen, upon learning of the affair, reported it to the station house, but as it occurred out of the jurisdiction of the authorities of this city, nothing was done.

The Fishery.

There was continued gloom at Fishtown this morning in consequence of the light receipts. The raw northeast wind and threatening weather cast a damper over the place. Prices for herring were about unchanged, but shad were still soaring upward. Buck were bringing $25 a hundred and roe $50.

The arrivals of herrings at Fredericksburg from the creeks and Potomac have been large this week. Potomac herring are sellg at $5 to $6 per thousand, while gill herring from the creeks have sold as low as $3 per thousand. Shad bring 20 to 30 cents each. Rock and good perch are very scarce. At Marlborough the catch is about 40,000 and at Widewater 30,000 each haul.—[Fredericksburg Star.

Another Excursion Boat.

Capt. E. S. Randall has purchased in Richmond the sidewheel steamer Pocahontas which will be put in service on the river during the coming excursion season. The Pocahontas was built at the works of Harlan & Hollingsworth at Wilmington, Del., in 1893. About a year ago she was partly destroyed by fire at Richmond but was subsequently rebuilt. Her tonnage is 814 gross and 541 net. She is 195 feet long on the keel, 33 feet wide and 11 feet deep. She can make seventeen miles an hour. In appearance she looks very much like the steamer Charles Macalister and can carry about 1,500 passengers.

Brumbey, the colored girl who is alleged to have poisoned Reuben Green, also colored, who died several days ago in Manassas. The sheriff held a conference with Capt. Boardmen at police headquarters and later left with the prisoner for Manassas.

An overcoat belonging to Mr. Milton Self was stolen from a saloon last night.

Rev. Dr. W. F. Fisher, the New Pastor of the First Baptist Church.

The formal acceptance of the call to the pastorate of the First Baptist Church of this city, by Rev. Dr. W. F. Fisher, of Concord, Va., has been announced to the congregation of that Church. The new pastor is not a stranger to Virginia Baptists. He was by profession a physician, and years before he gave up medicine to enter the ministry he was very active in demominational affairs. He was for eighteen consecutive years moderator of the Strawberry Association. After entering the ministry he attended the Southern Baptist Theological Seminary, in Louisville, Kentucky. His first pastorate was in Bedford and Campbell counties, consisting of Beulah, Bethel and Pleasant View churches, and two or three mission points. He was for nearly two years pastor of Mt. Madison Baptist Church, across the river from Lynchburg. In both of those pastorates the work prospered. In 1897 he was called to the pastoral care of the Fourth Street Baptist Church, Portsmouth, made vacant by the resignation of Rev. G. S. Kennard, now of Luray. His pastorate lasted for over six years, and the work grew and developed in every department. The Sunday School grew from one of the smallest to the largest in the city, and one of the conspicious features of the work was the large number of young people in the church, and connected with the church work. His pastorate was greatly blessed of the Lord, and he left, in May 1903, to accept the position of State Evangelist, but left with the love and good will of a united and harmonious church. He comes to this new charge with his ripe experience as pastor and evangelist, and, with the blessing of God, the church looks forward to the new relation with bright and hopeful expectations. Dr. Fisher has a wife and one child, who will be in the city sometime during the first of May next.

Fire Wardens.

An adjourned meeting of the Board of Fire Wardens was held last night. The meeting was held for the purpose of examining a charge against one of the paid members of the department, who, it was alleged, on last Saturday night left his engine house without permission and later attracted some attention on King street by fast driving. The power of the Board of Fire Wardens to dismiss or suspend for cause has been questioned since the adoption of the present State constitution, and it had been suggested that under the present order of things the Mayor was empowered to deal with city employees when they violate rules and are guilty of offenses calling for dismissal or suspension. Mayor Paff was therefore invited to attend the meeting. His honor, who, it seems, witnessed the violation of rules on the part of the accused, delivered a reprimand and warned the employee against a repetition of the offense. It is understood that Mayor Paff will send a communication to the City Council recommending an amendment to the city charter vesting the Fire Wardens with power to dismiss or suspend paid employees in future when they commit offenses.

Harrison—all relatives of the deceased.

Attempt to Burn Factory.

An unsuccessful attempt was made about 9:30 o'clock last night to burn the Ox Fibre Brush Works, formerly the Palmetto Fibre Works, the largest manufacturing establishment in Frederick, Md. The fire was started in the extreme end of what is known as the block department, the employes of which struck last week, demanding the discharge of the foreman, and were themselves turned off. The firebug broke a window and set fire to a pile of lumber against the wall inside. Afterwards a ball of waste, saturated with oil, was found near where the fire was started. The factory is equipped with an automatic sprinkler system, hose attached to a water tank and chemical extinguishers. The automatic sprinklers had already started when the fire was discovered by the night watchman. With the aid of men who were working in another wing of the factory, the fire was extinguished by the use of the chemical extinguishers and waterhose before the fire companies succeeded in laying lines of hose to the factory, which is near the city limits. The large buildings are equipped with expensive machinery, and the loss to the company would have been great, as the destruction of the factory would have thrown several hundred men out of work.

Alexandria Gazette.

THURSDAY EVENING, APRIL 13, 1905.

On Church and State.

The French Chamber of Deputies yesterday by 422 to 45 votes adopted Article 1 of the bill providing for the separation of church and State, as follows:

"The republic assures liberty of conscience and guarantees the free exercise of religion, the only restrictions being those in the interest of public order."

All the amendments were rejected.

The majority in favor of Article 1 was considered as showing the strength of the supporters of the measure.

In the Senate Minister of Marine Thomson, answering Baron d'Estournelle de Coustant, who in a speech yesterday urged the military and naval disarmament of the States of Europe by a proportional reduction of their forces similar to the joint disarmament of Chile and Argentina, said the idea of naval disarmament would be visionary so long as Great Britain, the United States and Germany continued to strengthen their fleets.

Following the Minister's speech the Senate adopted the naval budget bill calling for an expenditure of $24,200,000.

Metalworkers' Union.

President Samuel Gompers, of the American Federation of Labor, yesterday issued a statement to labor organizations affiliated with his organization, announcing that the United Metalworkers' International Union is no longer affiliated with the American Federation of Labor.

The communication recites that many conferences have been held throughout the country, the subject of which has been complaints of the infringement of the organization named on the territory of other trades unions. In all of these conferences these complaints have been sustained. Just as the executive council of the American Federation of Labor had issued positive instructions to the offending organization to cease infringing it received the information that the metalworkers' union had withdrawn from the American Federation of Labor.

Verdict Against Spreckles.

Vienna, April 13.—The verdict in the suit of Dr. Edgar Gans, an Austrian physician, against Rudolph Spreckles, the San Francisco millionaire, to recover $2,000 as a fee for treating Mr. Spreckles for appendicitis, was delivered in the civil court at Egr, Bohemia, today. Mr. Spreckles is ordered to pay the $2,000 and bear all the costs of the suit. The defendant had sent $500 to the physician for his services, but the latter refused this sum.
